Twenty-one Democrats in the United States Senate voted against the River and Harbor Bill, and only two Whigs, and they extreme Southern men. If that bill had the pass the vote of Pierce's veto, it would certainly be lost, as nearly two to one of his party in the Senate voted against the measure.

RITCHIEISM.—New events often require new words to describe them, and as our Locofoco brethren have used Gephism to describe the paying of a debt ordered to be paid by the Locofoco Congress, we suppose Ritchieism will be a suitable term to describe the gift of \$50,000 to reward a veteran Locofoco partisan. We think it the RICHEST term out.

THE ATLANTIC—VERDICT OF CORONER'S JURY.—At Erie, Pennsylvania, a coroner's jury was called over the bodies of some of the lost on the Atlantic. The verdict is that their death was occasioned in consequence of the gross carelessness and wicked disregard of life of Mr. McNair, the first mate of the propeller Ogdensburg. He admitted that he saw the Atlantic three miles off—that an order from him to the wheelman, a few minutes sooner, would have avoided the collision. He justified himself on the ground that he believed the Ogdensburg was in her proper course, and the Atlantic was not. Without determining as to whether there was carelessness on the part of those on duty on the Atlantic, the jury felt it their duty to find this fact against the mate of the Ogdensburg.

We apprehend a difficulty in getting at this case, as the loss happened in Canada. However, the lawyers will find some way of managing it.

This is the significant and appropriate title of the true digestive fluid, or gastric juice, prepared by Dr. J. H. Houghton, of Philadelphia, from the fourth stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy stomach. No art of man can equal its curative power. It renders GOOD EATING perfectly consistent with HEALTH. See advertisement, in another part of this paper.

The Telegraph for the Campaign.

We wish every reading family in Meigs county to become acquainted with the columns of the "Telegraph," hoping, thereby, to permanently increase our circulation. We will risk their judgment, if they can have a fair opportunity to examine the paper thoroughly. We wish, furthermore, to acquaint the voters in this county with the men and measures of the prominent political parties; and we feel equally certain of a large increase of Whig votes at the ensuing elections.

In view of these facts, we have concluded to receive subscriptions for the Campaign, commencing with our next issue, and ending with the last issue in November (four months) at the following rates:

Single copy	80 cents
Five copies, to one address	\$2.00
Ten " " " "	3.00
Twenty " " " "	6.00
Fifty " " " "	13.00
One hundred " " " "	25.00

The above rates but little more than cover the extra expense of printing and mailing; yet we are anxious, for reasons stated above, to circulate five or six hundred more every week.

Payments for the above must be made invariably in advance.
